To Whom It May Concern:

This letter is in reference to Summit Concrete Pumping.

Our company has been doing business with them since 2009, and we have always been completely satisfied with their concrete pumping and placement services. Maurice and his team have provided excellent service on both large and small commercial and residential projects. Their workers are punctual and reliable, and we have found through the years they always ensure the job is completed on time in a professional manner.

We are impressed with the services of Summit Concrete Pumping, and would be happy to use them on any future projects we may undertake, and also recommend them to others.

Please feel free to contact me if you would like any additional information.

Sincerely,

Kris Munivrana
